

Lesson 9: InsurTech

Module 1: FinTech Fundamentals

Digital Finance

Legacy Problems

- Manual underwriting
- Slow claims processing
- High operating costs (25-30%)
- Customer experience gaps

`figures/insurance_pain_points.pdf`

`figures/insurtech_value_chain.pdf`

AI-First Insurer

- Founded: 2015
- 90 second policy purchase
- 3 minute claims (simple)
- Behavioral economics model

`figures/lemonade_model.pdf`

figures/lemonade_economics.pdf

Behavioral Innovation

- Flat 25% fee
- Remaining to causes
- Reduces fraud incentive
- Community alignment

`figures/giveback_model.pdf`

AI Jim

- Computer vision analysis
- Anti-fraud detection
- Instant approval (40%)
- Human escalation

figures/ai_claims_flow.pdf

Telematics Revolution

- Pay-per-mile models
- Driving behavior tracking
- 30-50% savings potential
- IoT sensor integration

`figures/ubi_model.pdf`

figures/telematics_data.pdf

UBI Pioneer

- 14M enrolled drivers
- Average 16% discount
- Hard braking penalty
- Mileage-based pricing

`figures/progressive_snapshot.pdf`

Index-Based Payouts

- Predefined trigger events
- No claims adjuster needed
- Weather derivatives
- Instant payout automation

figures/parametric_concept.pdf

figures/parametric_examples.pdf

Automated Payout

- Delay > 2 hours = trigger
- Flight data API integration
- Instant payment via app
- No claim form required

figures/flight_delay_insurance.pdf

Point-of-Sale Integration

- E-commerce checkout
- Travel booking sites
- Ride-sharing apps
- Device purchases

figures/embedded_insurance.pdf

`figures/insurtech_segments.pdf`

New Channels

- Digital brokers (PolicyGenius)
- Aggregators (Compare.com)
- White-label platforms
- API-first models

figures/distribution_channels.pdf

Compliance Burden

- State-by-state licensing
- Capital requirements
- Rate approval process
- Data privacy constraints

figures/insurance_regulation.pdf

Digital Transformation

- Partnerships with startups
- In-house innovation labs
- Acquisitions (MetLife → Versicherix)
- API platform development

figures/incumbent_insurtech_strategy.pdf

From Reactive to Proactive

- IoT risk prevention
- Health wearable integration
- Smart home monitoring
- Dynamic pricing

figures/predictive_insurance.pdf

- **Lemonade:** Behavioral economics + AI reduces costs to 25%
- **UBI:** Telematics enables 30-50% personalized discounts
- **Parametric:** Automated triggers eliminate claims process
- **Embedded:** Point-of-sale integration captures moments
- **Future:** Predictive prevention over reactive coverage
